CONDUCTOR GETS \$2,000.

WORK BEGUN ON NEW CEMETERY

A Five-Acre Tract Has Been Surveyed and Staked.

TO BUILD A RECEIVING VAULT.

A Roadway Will be Constructed Leading to the Original Site of Cemetery—Greater Part of Tract Will be Used for Farming Purposes at Present.

Work has been commenced on Calvary cemetery, the new Catholic burial ground midway between Massillon and Canton, on the south side of the main highway between these two cities. A committee appointed by Bishop Horstmann a few months ago has charge of the work. It consists of Jerome F. Shepley and Joseph B. Schrader, of Massillon, and Joseph Dick, James Berry, Frank Sartner and Joseph Leeper, of Canton.

A tract of land containing about ninety-five acres was purchased early in the winter to be used as a cemetery by members of the Catholic church in both Massillon and Canton. The cemetery will not be under the jurisdiction of any one congregation but will remain a burial ground belonging to the diocese under the trust of the presiding bishop, who will leave the actual care of the grounds to a committee appointed from members of the church in Massillon and Canton.

Mr. Shepley and Mr. Schrader have been given authority by the committee to go ahead with the preliminary work. Accordingly they have hired Peter Crone, a farmer, to take charge of the farm. Mr. Crone is now breaking ground to put in spring crops. Mr. Schrader and Mr. Shepley have purchased a team and farming implements for Mr. Crone.

Only five acres, situated in the middle of the tract, will be used as a burial ground at present. As necessity demands, the burial ground proper will be enlarged. The five acre tract has been surveyed and staked off. A roadway will be graded from the Canton-Massillon highway to the five acre tract as soon as the farm work will permit. The committee hopes to begin work on a large receiving vault this summer. Specifications will be drawn up and bids asked for as soon as practicable. This will not be done, however, until the roadway has been built and the site for the vault selected and leveled.

The buildings on the farm have been given but little care in the past few years and a new barn is needed. The committee will have a barn constructed this fall. The house will be repaired this fall so that Mr. Crone and family can make the farm their permanent home.

The plans of the ground will be drawn up to be suitable for the next fifty years if necessary. The entire tract will be divided into five acre plats, leading from the one chosen as the original site for dedicating the cemetery. Already the committee has received six requests from Canton and Massillon for permits to use the grounds for burial purposes.

CHARGES AGAINST GARBER.

Municipal Ownership in Democratic Platform.

Columbus, May 6.—The Democratic committee of fourteen met Thursday and were advised by Chairman McKinney, of the state central committee, that he would call that committee to meet on May 24, the first day of the Republican convention, when the time and place of the Democratic state convention will be decided upon. Chairman Garber, of the executive committee, was not present, but he was discussed just the same. At the coming committee meeting Chairman McKinney will ask the members to investigate the complaint that Chairman Garber has been using his official position to further the interests of a certain candidate for governor.

Lewis G. Bernard, of Cincinnati, talked about the Democratic platform. He said: "Well, you don't want to put into a platform everything you can think of. I see Mayor Johnson wants to put in municipal ownership, government ownership of railroads and telegraphs and that sort of thing. It has no place in the state platform. With Johnson's kind of platform we couldn't win in Ohio in a million years. Take municipal ownership. It has no place in a state platform. Let every city decide that for itself. Let the cities have home rule in these matters."

HIGH SCALE OF 1903.

Wage Committee of Amalgamated Association Reports.

Detroit, Mich., May 6.—The long expected advance in wages for the one hundred and twenty-five thousand members of the Amalgamated Association of Iron, Steel and Tin Workers was provided for Thursday, when the wage committee completed its work. It will recommend to the convention that the high scale of 1903 be adopted, and that the base of wages for puddlers and finishers be increased from \$4.90 to \$5 a ton on a 1-cent card rate, and that the per cent of increase in the selling price of bar iron, necessary for an increase in wages, be reduced from 1.4 cent to 1.1 cent, which practically means that a demand for an increase in wages will be made amounting to over 15 per cent.

The report will be placed before the convention on the return of President Shaffer from Wheeling, and from the opinion of the delegates expressed it is certain the new scale will be adopted.

The efforts of the agents of the Republic Iron and Steel Company, who have held several conferences with the wage committee concerning a differential scale for iron and steel workers, failed the committee refusing to recommend it. The proposition will, however, come before the convention, as a minority report has been prepared.

The differential scale is one of the most important questions before the convention. Members say the difference in wages received by steel and iron rollers was the primary cause of the strike at the Carnegie Steel Company's mills at Youngstown. The steel rollers, working on an iron basis, received 20 per cent more than the iron rollers, whose work is more difficult.

Concessions were also asked by the Republic Company as to output, but the wage committee failed to recommend the change, and it is certain the long established rule of the association as to limited output will be enforced during the ensuing year.

Under the new scale the puddlers will be more easily affected by any advance in the price of bar iron than under the old scale.

A FULL TICKET.

Ohio Socialists Will Hold Convention in Columbus.

Columbus, May 6.—A call has been issued for the Socialist state convention to be held in this city May 28, 29 and 30. A full state ticket will be nominated. The apportionment has been fixed upon the vote cast for Eugene V. Debs for president last fall, which gives the convention about seventy-two delegates.

Oscar Ameringer, who was a candidate on the Democratic legislative ticket in this county in the Tom Johnson campaign and is now one of the leading spirits in the Socialist party, says the increase in the vote in this state has been about 90 per cent. In 1900 it was 4,000, in 1902 14,000 and in 1904 Debs' total vote in the state was 36,900. He is confident that the party will increase its vote this year and says the time is not far distant when the truth of Senator Dick's prediction that the Republicans will have to fight Socialism in state and nation will come true.

There is no doubt that federal, state and municipal ownership will constitute most of the Socialist platform.

FISH SEASON CLOSED.

Blue Gills and Bass Must Not be Caught Says Warden.

Game Warden Dangeleisen has warned fishermen against fishing in the reservoir until further notice, which will probably be given by him sometime between June 10 and June 15. The reservoir has been a popular fishing resort for the past three weeks and numbers of blue gill, bass and other fish have been caught. The season for blue gill and bass closed May 1, and Warden Dangeleisen desires that everybody be informed to that effect.

River fishing can be continued, except for blue gill and bass, but only pole and line fishing can be done. All trot line, dip net and seine fishing must be stopped according to the game laws. Warden Dangeleisen has heard that there is some of this kind of fishing being done, and if the culprits are caught they will be prosecuted.

A large number of fish law violations have been reported to Warden Dangeleisen within the past week and arrests will be made at once. It will be remembered that it was at this time last season that Warden Dangeleisen rounded up a large number of Akron members of a prominent fishing club, as a result of which he met with some opposition from the state fish and game law commission. It is intimated that there will be a repetition of these wholesale arrests.

COURT ASSIGNMENTS.

Sixty-five Cases to be Considered Next Week.

Canton, May 6.—The coming week promises to be a busy one in common pleas court. There are sixty-five cases on the assignment for Judges Harter and Ambler and quite a large number are divorce proceedings. This is usually the case with the second week of a term, although the assignment seldom contains as many cases. Prosecutor Day said that the grand jurors would likely complete their labors and make their report the latter part of the week. The assignments of cases follows:

COUNTY SEAT NEWS.

Crooks Were Busy During Circus Day.

CANTON MAN LOST A \$110 PIN.

Room in American Block Entered and Valuables Taken—Trouble Between Street Railway Company and Employes Will be Settled Some Time Tonight.

Canton, May 6.—While the appearance of a circus amuses thousands of people, there are usually others that are wiser and sadder after the circus has gone. The latter usually lodge their complaints with the police. Edward J. Rex, the South Market street tinner, said Saturday morning that when he started for the circus grounds about 7 o'clock in the evening he wore a diamond shirt stud, valued at \$110, but that after the performance was over this was missing. He thinks the sparkler was extracted from his bosom while he was attempting to get onto a crowded car at the square, and says that people were crowding and jostling against him at this time, but that he did not feel the deft fingers of the thief removing the stone. Allen T. Enlow, of 430 South Market street, reports that he had a pocketbook containing a check for \$10, stolen from him Friday night. He thinks it was taken from his pocket in a street car at the public square. Susan Stendel locked her room in the American block Friday afternoon while she paid a visit to a sister in the west end of the city. When she returned during the evening she discovered that the room had been entered and that everything had been ransacked. The contents of dresser and other drawers were scattered over the carpet and after taking a partial invoice she reported that several fine silk waists, a silver clock standing upon the mantle and a number of other small articles were gone. She thinks the thief intended to get into the room of a saloonist, who has the adjoining room, and usually keeps money there.

The Rev. Father George C. Schoenemann, pastor of the Immaculate Conception church in South Market street, said Saturday morning that his congregation would soon commence the erection of a handsome parsonage on the lot north of the church. He says that the plans have already been prepared and he is now awaiting the sanction of Bishop Horstmann, in Cleveland. The new home will be of modern architecture and will contain fourteen large rooms, containing every convenience. Mrs. Maudie Sanor, residing in East Ninth street extension beyond the limits of the city, was taken to the city prison by Patrolman Andrew Wilhelm Saturday morning about 11 o'clock, on a charge of shoplifting. She came to the city in company with her husband, John Sanor, who ekes out an existence by sharpening lawn mowers and doing odd jobs, and a short time later Mrs. Sanor entered Bour Brothers' drug store, presumably to make some purchases. Before leaving she secreted three fine cut glass dishes under her clothing and carried them to the Remlett jewelry store, in Market near Eighth street, where she disposed of them for a small sum of cash. When she discovered that she was detected she secured the goods and had them returned to their rightful owners. She freely admitted in the city prison that she had taken the dishes and said that she did it because she needed the money. She wept bitterly after she was imprisoned and asked that her husband be sent for. Merchants declared that much of this kind of work has been done in Canton.

It is said by those in position to know that the trouble existing between the employees of the street railway system and the company will be settled at a meeting to be held here tonight after all cars and power ceases. No trouble is anticipated.

A MAY PARTY.

Presbyterian Church Will Give One Wednesday.

The Presbyterian church and Sunday School will give a May party next Wednesday afternoon, meeting at the Main street wharf of the Ohio canal and embarking on a canal boat for a ride to the neighborhood of Coxey's quarry. There the picnickers will go ashore and explore the beauties of the woods and fields in the vicinity during the afternoon. The party will leave the Main street wharf at 2:15 p.m. Full arrangements of the plans for the day were made at Sunday School, Sunday morning.

Street Car Company Accused Him of Dishonesty.

Pittsburg, May 6.—William S. Bell, formerly a street car conductor in the employ of the Pittsburg Railway Company, has been awarded \$3,000 damages against the company by a jury. Bell had been discharged from the employ of the company for the alleged knocking down of 80 cents and he sued for damages, claiming he had been unjustly accused and that he never stole a cent from the company. He proved in court that every cent he had taken in had been accounted for.

The suit of Bell has been watched with great interest, and when the decision was announced there were not a few former conductors who went to their attorneys and consulted them regarding entering suits for being discharged.

STATE OFFICERS AT HOSPITAL.
An Inspection Made by State Board of Charities.

BASEBALL SEASON HAS OPENED

Ball Field Has Been Repaired of the Damage Done by Spring Rains—A Large Tulip Bed in Bloom—Farm Work is Being Rushed.

Virgil P. Kline, of Cleveland, I. H. Platt, of Columbus, and H. H. Shirer, members of the state board of charities, were visitors at the Massillon state hospital Friday afternoon and Saturday morning in their official capacities as inspecting officers. The board makes two inspections each year of all the state institutions and embodied the results of the inspections in an annual report. They left for their homes Saturday but will resume the trip in the near future.

The base ball season at the hospital was formally opened Friday afternoon with a game between two nines chosen from players at the hospital. A game had been scheduled between the hospital team and a city team, but the latter failed to appear, necessitating the choosing of teams from the players on the ground. Crossland and Dawson captained the teams and Crossland's team was the victor by a score of 9 to 2. Games are being arranged with several teams both in and out of the city.

One of the most beautiful sights on the hospital grounds is a large tulip bed in the small park enclosed by the walls of the main entrance to the office building. The bed is some twenty by fifteen feet in dimensions and is one mass of variegated colors.

The farm work has progressed rapidly during the past week. The rains have been a benefit to the garden. About eighty acres of potatoes have been planted, forty of which are in the tract of land known as "the new farm." Five teams are kept busy each day.

Attorney General and Mrs. Wade H. Ellis came up from Columbus Friday to be the guests for a few days of Mr. and Mrs. Barry Dudley at the steward's residence or the hospital farm.

Superintendent H. C. Eyman has returned from a business trip to Columbus.

The usual Friday evening dance was given in William McKinley hall and was attended by about three hundred persons, many of whom were from the city.

The tennis court has been made ready for games and this place will be the scene of many lively tilts, as there are many excellent players connected with the hospital force.

The new cottage will be completed this summer and work upon it will be rushed from this time.

All of the trees recently planted in the hospital grounds are beginning to bud. Fifteen hundred have been planted in the conspicuous parts of the grounds within the past few weeks.

The damage done by the heavy spring rains on the base ball field has been repaired and the ground is in excellent condition for games.

The trustees will meet at the hospital on Friday, May 19, according to present arrangements.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

UNION STABED

MONDAY, MAY 8 1905

Massillon patrons of the Wabash railroad can't go to Pittsburg and return in one day. The first train for the east leaves this city at 1:27 p.m. A glance over the new train schedule is interesting in many other respects. Massillon people in most cases must go to Canton to get any kind of a proper train service on the Wabash.

While the recent automobile accident in which Massillon people were involved was the result of a number of unforeseen circumstances, rather than carelessness, it should serve as a reminder of the dangers of motoring. Massillon has been fortunately free from disasters of this kind and it is to be hoped that its record can be maintained. Certain it is that a speed limit should be set and the police instructed to see that it is not exceeded on the city streets.

Of the five young men who won honors at West Point this year three are Southerners. There may be some disappointment because more Northern men are not represented on the honor roll but there is also a general feeling of satisfaction that the section which has given to the country soldiers of the stamp of George Washington and Fitzhugh Lee is still able to furnish its share of young Americans to take prizes at the famous educational institution. The Atlanta Constitution expresses a popular sentiment when it says: "The young men of the South have the blood of patriots and soldiers in them and it is gratifying to this section of our common country to know that they are still capable of measuring up to the old ideals in the proof to which they are being put in these later days."

The board of public service of Cincinnati has decided that hereafter no bill boards or advertising of any character shall be permitted upon land owned by the city. Mayor Fleischman, of Cincinnati, is in the distilling business, the head of a company that advertises extensively. The Commercial Tribune reports him as saying, "I do not personally, from a business viewpoint, believe in billboard advertising, for it is not profitable—in fact, it is not, unless in exceptional cases, worth anything. I came to this conclusion several years ago. When it was started it was good, but now there are so many billboards, and the business has been so overdone, that no one notices or pays attention to them. If an agreement could be reached among advertisers to stop advertising on billboards it would not hurt any of the advertisers, but would benefit all. As it is now, a man in his business is sometimes compelled to do some things against his best judgment." Mayor Fleischman is quite right. A business man's best judgment tells him that the newspapers offer the best, most respectable and profitable way of securing the attention of the public. Billboard advertising is generally conceded as constituting an unsightly nuisance and as such is shunned by most enterprising advertisers.

THE ITALIAN IMMIGRANTS.

In a recently published report of the commissioner of immigration, it was stated that the cause of the chief danger to be apprehended from the enormous immigration of aliens is, that certain foreign governments are engaged, actively, in trying to colonize their subjects who come to this country, for the purpose of maintaining in them a love of their mother country and preventing them from permanently adopting American ideals. From certain expressions in the report, it appeared that Italy was regarded as one of the countries which were supposed to be carrying out this policy. The suggestion was strongly resented by the Italian government, and Dr. Gustavo Tosti, acting Italian consul general in New York, contributes to the May number of the North American Review a semi-official statement in which he seeks to show that the imputation against his country is unjust. Dr. Tosti analyzes the Italian emigration law of 1901, and shows that its provisions tend rather to discourage than to encourage emigration, and that in so far as it bears upon emigrants after they have left Italy, its professed purpose is to ensure them decent treatment on the way to the country of their destination. For the rest, in so

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble prevails upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child furnishes too often, if the urine scalds the flesh, or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-

cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N.Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N.Y., on every bottle.

far as Italian officials have tried to influence Italian immigrants into the United States, they have insisted upon the necessity of the immigrants identifying themselves with the interests of their new country. He says:

"On the evidence thus submitted, it is difficult not to see that the efforts of the official representative of Italy in New York—that is, in the most important place of landing of our immigrants—have been persistently and systematically directed toward the attainment of the very ends which the commissioner general has in view. The agricultural distribution of the newcomers, the gradual and natural disintegration of the so-called 'alien' colonies and the blending of their members with the communities in which they have established their new home, such are the corner stones of a programme which has been asserted on every occasion and with every means at our disposal. It is hardly necessary to point out that this line of action was in perfect harmony with the general policy pursued by the Italian government concerning the immigration problem. A most striking proof of this is afforded by the fact that, when Signor Adolfo Ruossi, a member of the Italian department of emigration, was sent here last winter to make a thorough study of the question, the first object to which his attention was directed by his government was the overcrowding of immigrants in the cities, and the means to favor their agricultural distribution. If the central idea of our law is to leave emigration entirely free from any attempt at artificial inflation, and merely to perform in regard to the individual emigrant certain specific duties of help and assistance, the central idea of our policy concerning the Italian emigration to this country must necessarily be to let the assimilation of our immigrants go unhampered. By pursuing that policy, we will assist our immigration in becoming an active factor in the life of this great country."

CURE YOUR KIDNEYS.

Do Not Endanger Your Life and Health When a Cure is so Easy.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness and stiffness in the back, why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use because it gives the kidneys help they need to perform their work. That Doan's Kidney Pills cure, and cure permanently, is proved in a citizen's statement. If you have any, even one, of the numerous symptoms of kidney complaint cure yourself before diabetes, dropsy or Bright's disease sets in. Read this Massillon testimony.

Mrs. B. C. White, wife of B. C. White, machinist, at the Bridge Works, and living at 36 Danner street, Massillon, says: "I told residents of this city through our local papers in the month of May, 1900, that I had been relieved of pain and lameness in my back by the use of Doan's Kidney Pills, procured at Baltz's drug store. I can add, today, that during the four years or more which have elapsed that never once has this remedy failed to bring prompt and effective relief whenever I feel the least touch of backache coming on. Other members of my family have used Doan's Kidney Pills with the same satisfactory results. In cases of backache and other troubles arising from the kidneys there is no better remedy."

Trotting Dates For The Season

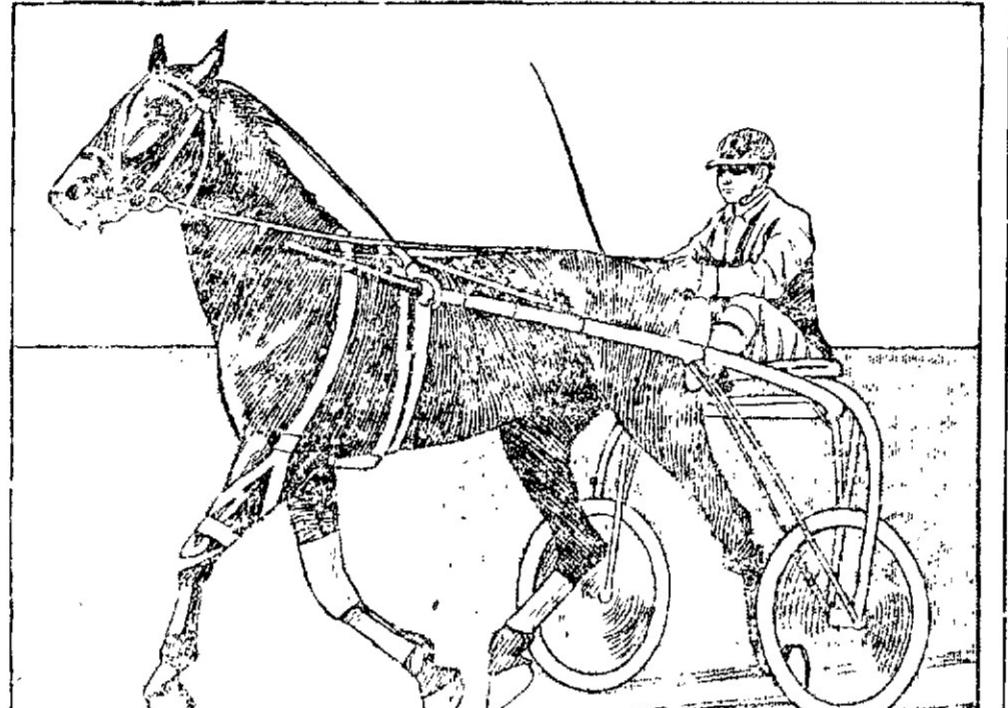

The Grand Circuit Meetings—“Big Ring” Races Begin July 24—Harness Campaign Opens In May — The ‘Novelty Plan’ Events, Etc.

The light harness racing season is almost at hand. The first races will, as usual, be held in May, and the dust raising time destroyers will be gradually “trained on” for the important meets of midsummer.

The opening race meets are held on the small tracks because the leading horses are never in shape for fast going before June. July is the most important month for final preparation and the season climaxes in August and September. More trotting and pacing races are held in these two last named months than in the rest of the year combined.

Grand Circuit Opens July 24.

This season the grand circuit opens July 24. Each of the ten circuit tracks has six days of racing allotted to it. As usual, the sport on the “big ring” begins at Detroit. Cleveland gets the next meeting, July 31 to Aug. 5. The succeeding grand circuit meets occur

Cuyahoga County Republicans Pay the Governor Signal Honor.

PREACHER TO SOUND THE KEY NOTE

Significant Statement Was Made By Lieutenant Governor Harding In Recent Interview—Need of State Banking Law Discussed.

Columbus, O., May 2.—(Special.)

The Republicans of Cuyahoga county paid Governor Herrick a signal honor when they announced that their delegates to the state convention would be named by the chief executive himself. One of the men who will represent Cuyahoga in the convention will be Rev. Dr. Morgan Wood, former pastor of the Plymouth Congregational church of Cleveland. Dr. Wood has been asked by the governor to present the latter's name to the convention and the noted divine has accepted the invitation.

In his address to the convention it is the plan of Dr. Wood to answer the criticism against Governor Herrick on the part of the Anti-saloon league, and to set forth the reasons why he should be supported by that element of Ohio over the objections that have been and may be advanced by the temperance forces represented by the Anti-Saloon league.

According to present plans the speech of Dr. Wood will be more pretentious than the ordinary nominating speech. He will be expected to sound the “keynote” of the campaign in such a manner that it can be effectively used during the heat of the canvass in answer to the arguments coming from the Anti-Saloon league and the few church organizations demanding the defeat of Governor Herrick.

Dr. Wood is a personal friend of Governor Herrick and is an eloquent and able speaker.

In the recent interview wherein Lieutenant Governor Warren G. Harding announced that he did not wish a renomination, the Marion editor set at rest the story that he was opposed to Governor Herrick. Mr. Harding said: “I have nothing against the governor, and, on the contrary, I cherish the highest feeling for him and will do nothing that will injure him in the slightest if I can help it.”

Mr. Harding stated also that he had refrained as far as possible from engaging in any controversy because of the fact that it might be construed that he was opposed to Governor Herrick.

The state administration favors the enactment of a law that will give Ohio complete supervision of state banks. Two years ago, Governor Herrick said he thought a good banking law was a necessity. He has repeatedly reiterated that sentiment.

The bank failures in Ohio, and the big defalcation in Milwaukee call attention to this matter in an emphatic manner. The Cincinnati Times-Star discussed the Milwaukee failure and says:

“This defalcation at once causes the depositing public to inquire what regulations govern banks in the state of Ohio outside of the national banks.

Has the legislature of our state provided for the safety of depositors by requiring an impartial investigation into the assets of state banks, state savings banks and trust companies? How long could such a defalcation be covered up in our state institutions?

“The answers to these questions are not satisfactory to depositors, because Ohio, with Oklahoma and one or two Western states, has no state bank department which has supervision over state banks, savings banks and trust companies.

“In our state these concerns could cover up such defalcations for an indefinite time. Over thirty-five states of the Union have laws providing for the official examination of savings banks and trust companies, but Ohio adheres still to the old way of doing business.

“Public sentiment is rapidly pushing to the front a demand for the establishment of a state banking department, which shall have absolute power to investigate all institutions of this character.”

Governor Herrick and the other state officers will do all in their power to have the Ohio legislature enact proper laws safeguarding the interests of depositors.

In an editorial discussion of the Clark county convention, the Springfield Gazette says:

“Clark county, as usual, is one among the leaders in the work of another state campaign, but next week and that following will see the assembling of a large number of Republican county conventions in different parts of the state and the situation will have developed itself materially and it will be found that the supposed defection from Governor Herrick is more imaginary than real. His business administration is approved and the forces back of him are lined up for action.”

“Chairman Dick, while in Columbus the other day, gave it as his conviction that Governor Herrick would be elected for his second term by the usual large, round majority and General Dick is in a position to know whereof he affirms. He said further that Senator Foraker was prepared to go into the campaign and would take the stump for Herrick in a platform based on national and state issues alike. It is well.”

The Pinch Ball Is the Latest, Originated by Falkenberg --- Sudhoff's Jumping Rise Shoot Said to Rival the Noted Spit Ball.

Pitcher Fred Falkenberg of the Montreal team of the Eastern league has invented the latest baseball novelty. It is the pinch ball. Falkenberg states that it is thrown overhand and “off the thumb.” In other words,

the ball revolves off the thumb as it is thrown, the thumb pressing the under side of the sphere.

“This pressure,” says Falkenberg, “gives the ball a wicked and peculiar break just as it reaches the plate. It swerves sharply outward. The curve can be thrown with a slow ball as easily as with a fast one. This aids a pitcher a great deal when ‘mixing’ his delivery.”

CRISIS COMES TODAY

Troops to Be Sent to Chicago
If More Rioting Is Indulged In.

SHERIFF WILL MAKE THE TEST

Deputies Assist in Guarding Wagons
of Boycotted Firms—Less Disorder
Follows New Plan Adopted by Officers

Chicago, May 6.—A crisis in the teamsters' strike is expected to come today. State street retail merchants have decided to send out 1,100 wagons to make deliveries in all parts of the city. As far as possible these wagons will be guarded by deputy sheriffs and in some cases by policemen. It will be impossible for all of the wagons to be guarded by deputy sheriffs, but it is the intention to place two officers on each wagon as far as the number of deputies already sworn in will permit. Sheriff Barrett has 200 deputies in service and said that he thought this number would be ample for the work outlined. If it is not, it is said he will conclude that the sheriff's force and the police are not able to control the situation and a request will be made for the state militia.

Governor Denison has said that he will order out the troops if a request is made by Sheriff Barrett, and on the failure or success of the attempt at retail deliveries depends the coming of troops. Fifteen wagons were sent out by the large drygoods and department stores and all of them made deliveries with little interruption. On each of these wagons rode two deputy sheriffs. It was the success of this attempt at deliveries that prompted the stores to send out nearly their full force of wagons. Either because of the threatened appearance of the troops or because of the addition to the police force in the shape of deputy sheriffs there was much less rioting and fighting in the downtown streets than on any day this week.

Police Adopt New Plan.

Express wagons, each one of which carried a guard armed with a rifle or a double-barreled shotgun, went to and fro between depots and express offices without interruption other than that of an occasional stone thrown from the sidewalk or of some missile hurled from a window.

An order issued early in the day by Chief of Police O'Neill directing that all persons should be prevented from following wagons as they went through Congregational church and every Congregational clergyman in the United States four circulars. One of these is a letter explaining the significance of the movement; another is the statement issued by Dr. Washington Gladwin of Columbus, O., moderator of the National Congregational council; a third is a sermon entitled "The Spirit of Protest," by the Rev. Artemas J. Haynes of New Haven, Conn., while the fourth is the work of the protest committee and bears the caption, "The Issue Before the Church."

The members of the committee whose names are appended to the last mentioned circular say that it was prepared "to call attention to the specific moral questions confronting the churches if the principle avowed in accepting this gift from Mr. Rockefeller is to be maintained."

All firms, regardless of whether they were involved in the strike. This firm handles all the merchandise of the greater part of the drug stores and boot and shoe manufacturers throughout Chicago, and should the teamsters decide to call out, the union drivers employed by the firm it would affect 6,500 men.

Furniture manufacturers resolved that all teamsters employed by them would make deliveries or be discharged. The castings express company, employing 50 drivers, ordered its men to deliver goods wherever they were directed and upon their refusal discharged them all.

The employers' association has decided to offer a reward of \$50 for the arrest and conviction of any person interfering in any way with employees who have taken the places of strikers.

Fire last night broke out in the coal yard of the Peabody Coal company at Twenty-eighth street and the Pennsylvania railroad tracks. The damage was \$200. A large crowd gathered, but no one would turn in an alarm because of the feeling against the Peabody company, which is a strong factor in the teamsters' strike. The blaze was seen from a distance by a policeman, who called the fire department. The police declared that the fire was caused by an incendiary, but they had no proof.

Banks to Be Boycotted.

Labor leaders are considerably stirred up over the action of the Chicago banks passing resolutions urging sending the militia to Chicago and raising \$50,000 to help the Chicago employers' association. Efforts, it was said, would be made to find a "fair" bank in Chicago and if such is found

it is planned to have the laboring men withdraw savings from banks under ban and deposit with the "fair" banks. President Shea of the teamsters' union said: "The Building Trades council has sent a committee to me to see if we could not pick out a fair bank and advise every union man and woman in the city to withdraw earnings from unfair banks and place them in the one which is not furnishing funds to fight the strikers. If the plan is adopted it is probable that union men with about \$25,000,000 in savings deposits will be asked to take them out."

CRUSADE WILL CONTINUE.

Opponents of Gifts from Rockefeller Continue Agitation.

Boston, May 6.—What is described in a circular as "the first gun in our educational campaign" will be "fired" by the committee acting for the Congregational ministers of New England who protested against the acceptance of John D. Rockefeller's gift of \$100,000 by the American board of commissioners for foreign missions.

The committee will mail to every Congregational church and every Congregational clergyman in the United States four circulars. One of these is a letter explaining the significance of the movement; another is the statement issued by Dr. Washington Gladwin of Columbus, O., moderator of the National Congregational council; a third is a sermon entitled "The Spirit of Protest," by the Rev. Artemas J. Haynes of New Haven, Conn., while the fourth is the work of the protest committee and bears the caption, "The Issue Before the Church."

The members of the committee whose names are appended to the last mentioned circular say that it was prepared "to call attention to the specific moral questions confronting the churches if the principle avowed in accepting this gift from Mr. Rockefeller is to be maintained."

FRESH AIR BEST REMEDY.

Spinal Meningitis Commission Recommends That Treatment.

New York, May 6.—At the conclusion of a meeting of the cerebro-spinal meningitis commission Health Commissioner Darlington announced that the commission had concluded that the best treatment for the disease is a thorough system of fresh air. Windows should be kept open day and night, he said, and plenty of fresh air and sunlight admitted to the sick room. This treatment has been adopted at the Presbyterian hospital in this city and elsewhere with the best results. It has been found that when this is done the patient sleeps without the administration of an opiate and is comparatively free from pain.

It was also announced that according to tests performed under the direction of the commission no benefit has been derived from the injection of diphtheria anti-toxin or from any other serum of antitoxin. Experiments along this line have not been abandoned entirely.

Former Ohioan Hanged.

White Sulphur Springs, Mont., May 6.—Herbert H. Metzger was hanged for the murder of Homer Ward last Thanksgiving day. The dead body of Ward was found partly burned in bed in a cabin where he lived alone. He had been shot in the head. Metzger was 29 years old and is said to have belonged to a good family living in Pierce, O., near Akron.

Perry Acquitted of Arson.

Chicago, May 6.—Isaac N. Perry, formerly president of the National Bank of North America, was acquitted of the charge of setting fire to the Chicago, Car and Locomotive company's plant at Hegewisch, Ill., to secure the insurance money. The jury was out only 10 minutes.

New Postoffice Appointments.

Washington, May 6.—The following postmasters have been appointed:

Pennsylvania—Morford, Greene county; Emerson B. Anderson; Neals Run, Fayette county; John Bungar.

Ohio—Cleveland, Cuyahoga county; Silas E. Sawyer.

FOUGHT FOR PISTOL

Wife Is Victorious in Life and Death Struggle With Husband.

THEN DRINKS DEADLY POISON

But Is Saved by Detective Who Administers Homely Remedy—Continual Bickerings Lead to Tragedy in Trolley Car Conductor's Home.

Pittsburg, May 6.—While struggling with his wife for possession of a revolver, Harry Mickle, aged 31, of 700 Cedar avenue, Allegheny, was shot through the head and instantly killed.

Annie Mickle, the wife, is in the Allegheny General hospital suffering from a draught of wood alcohol, taken with suicidal intent. Detective Spear arrived at the house a few minutes after the woman had swallowed the stuff, and while awaiting the arrival of the hospital ambulance prepared an emetic of milk and the white of eggs. Mrs. Mickle drank this and will likely recover.

A few minutes after 6 o'clock Mrs. Mickle came down stairs with some personal effects in her hands and gave them to Alice Woerner, who lives with the Rayburns.

"I've killed him and I want to die," Mrs. Mickle said. Then she told of drinking wood alcohol. On the floor of their front room, on the third floor, the body of Mickle was found. A revolver was clutched in his right hand and the barrel on each side of his head showed the course of the bullet.

Mrs. Mickle went shopping with another woman and her husband saw her. When he came home he started to upbraid her for leaving the house. She says he declared he was going to kill her and with this object opened a trunk and took out a revolver and pointed it at her. She reached for it and the two struggled. The weapon was discharged and without a groan Mickle sank to the floor with a ball through his brain.

Then Mrs. Mickle says she fainted and when she recovered consciousness she was lying beside the body of her husband. After a while she wrote a note addressed to Alice Woerner and prepared to end her own life. The note tells the story:

"Alice, do me a favor. You see what has happened. I could not stand it any longer. I leave everything in this room that belongs to me to you. And if you want you can divide with Mrs. In my pocket you will find \$22,500 and my watch; this ring is there, too. You can have it if you want it. Alice, there is enough money to put me away. I won't do it but I cannot stand it. Please, Alice, attend to me. There is money coming to him up in the barn. Tell Mr. Menz to get it. Goodby forever. In this little trunk you will find those papers for my storage in Philadelphia. Please sell that."

"MRS. ANNIE JANE MICKLE."

Superintendent Glenn thinks there is something unusual about the tragedy. The woman declared before the arrival of the police that she killed her husband, but this she denied later.

BLOODLESS VICTORY WON.

Striking Miners Persuade Non-Union Men to Cease Work.

Elmira, N. Y., May 6.—The striking miners of Morris Run, Pa., and sympathizers from Blossburg, Arnot and other mining towns in Northern Pennsylvania, repeated the marching demonstration against the strikebreakers at Morris Run which has been so successful.

Over 1,000 men assembled in Blossburg and marched to the other mining towns. As before, a band accompanied the marchers and another large number of the imported men agreed to lay down their picks and shovels. It is reported from Morris Run that "Mother Jones" is on her way to that place to help the strikers.

Mrs. Baer Buys McKinley Place.

Somerset, Pa., May 6.—"McKinley Place," the summer home of the late Abner McKinley of Somerset, has been sold at orphans' court sale. Mrs. Mabel McKinley Baer, the deceased's only daughter, who is known on the stage as Mabel McKinley, was the purchaser for \$16,600.

Butler, Pa., May 6.—A gusher which is flowing oil at the rate of 200 barrels a day has been struck on the Samuel Sheakley farm, near Petrolia, in Fairview township.

ROCK IN THE KITCHEN.

Attentive to Sustaining White Wife Lay Out Died.

China, May 6.—According to Joachim Hoelz, 50, with his son Peter of 10, this is a white woman. Mrs. Walter Hoch, 35, of Allesch, was given by Mr. Geissel, the magistrate, the name of Hoch until a few days before her death.

The nurse said that she disagreed with the sick woman from the first. Miss Geissel said she asked Hoch to dismiss her, but he refused, saying his wife was too sick to be left alone. Notwithstanding Hoch's remark and his apparent affection for his wife, Miss Geissel said that he had spent most of his time in the kitchen with Mrs. Fisher whenever his sister-in-law was at the house. Miss Geissel said that she remonstrated with Hoch and told him that his wife was jealous, and after that he had spent more time in the sick room and less in the kitchen. Witness said the sick woman complained of pains in the abdomen, was very thirsty and could eat nothing. The nurse said that she had given injections to Mrs. Hoch by order of Dr. Reese. Witness admitted giving cocaine to Mrs. Hoch on three occasions when the patient had passed a sleepless night.

Edward B. Frye, the New York detective who found the fountain pen which contained arsenic in Hoch's possession, said that when he arrested Hoch on Jan. 30 Hoch persisted his name was Henry Bartel and that he was a salesman.

TEN BANKERS IN THE PEN.

Cashier Spear Arrives at Columbus to Begin His Sentence.

Columbus, O., May 6.—A. B. Spear, late cashier of the "Chadwick" Oberlin bank, was received at the penitentiary to enter upon his seven years' imprisonment. He brought with him a letter from District Attorney John J. Sullivan, who prosecuted him, in which that official requested Warden Gould to give the prisoner clerical work.

Spear took his imprisonment with rare good humor. He laughed and joked with the officials. He conducted himself in the same "airy" manner in Oberlin during the time that his conduct in the Citizens' bank was under investigation.

Because there are now 10 bankers in the penitentiary, all of whom have been assigned to clerical work, it is not likely that Spear will be given an easy task at once.

Spear was permitted to retain his watch. When \$60 in currency was taken from his clothes he asked for a receipt. He proposes to be a model prisoner.

STORM IN OKLAHOMA.

Number of Persons Killed and Over 100 Injured.

Fort Worth, Texas, May 6.—A tornado passed over Central Oklahoma and part of Indian territory last night, followed by excessive rain and hail. The town of Owasso, Okla., nine miles north of Tulsa, Okla., was almost destroyed. A number of persons were killed and more than 100 were injured.

At Edmond, Okla., the wind destroyed several small buildings, demolishing the plate glass front of De Ford's store and raining trees by thousands. At Midwest, Okla., the hail damaged all growing crops and fruit and destroyed some property.

Locally the only damage was from a severe dust storm, which was followed by the heaviest rain of the season.

GRIEVED OVER HANNA.

Late Senator's Coachman Follows His Master to the Grave.

Cleveland, May 6.—Charles Banning, for 33 years the coachman for the late Senator Hanna, has followed his employer to the grave. His death took place at Washington, where he had accompanied Mrs. Hanna, intending to go with her to Seal Harbor to spend the summer. He died, it is said, as the result of grief over the senator's death.

Banning was a familiar figure to Cleveland friends of the senator. He always occupied the box on the Hanna carriage when the senator drove out and was a great favorite with his employer. His body will be brought home. He will be buried by the Hanna family.

4-YEAR-OLD SAVES LIFE.

Playmate Falls Into Vat and is Rescued by Little Boy.

Aberdeen, O., May 6.—George, the 4-year-old son of Officer George Covert, saved the life of Thelma Groninger, aged 6.

While playing in the tannery lot the Groninger girl fell into one of the large vats filled with water. She was sinking the second time when the Covert child grasped her by the hair and held her until older persons lifted her out.

AID FOR NEGUGATOFF

Rejestrvenky Fears Japanese Cruisers Will Cut Off His Third Division.

SAILS SOUTHWARD TO MEET HIM

Four Russian Torpedo Boat Destroyers Sighted West of Hokkaido—Are Supposed to Be Scouts from Vladivostok—No News of Togo.

St. Petersburg, May 6.—Admiral Rojstvensky, according to a sign naval authority, has sailed south to meet the division of the Russian second Pacific squadron commanded by Admiral Neogoroff. The admiral has information that a Japanese division of fast cruisers and torpedo boat destroyers was sent south for the purpose. If possible, of crippling or destroying Neogoroff's ships before they could effect a junction with those of Rojstvensky.

The admiralty expresses much gratification at the fact that Admiral Neogoroff has successfully reached the China sea, but appreciates that the position of the division renders it particularly vulnerable to a swift adversary, especially as the crews of his ships have not had the training in maneuvering or the target practice which Admiral Rojstvensky's crews had while on the island of Madagascar, and the anxiety here will only be somewhat relieved when it is known that a junction has been effected.

Toledo, May 6.—Four Russian torpedo boat destroyers have been sighted west of Hokkaido.

Hokkaido, or the North's circuit as it is also known, comprises Yezo, the most northerly of the large islands of Japan, with the 12 adjacent islands and the Kurile islands. It is separated from the main island of Japan on the south by the strait of Tsugaru, 10 miles wide. Its principal port is Hakodate.

It is extremely probable that the Russian torpedo boat destroyers sighted are part of the fleet reported to be en route to Vladivostok to join Rojstvensky's squadron.

DALTON.

Dalton, May 8.—Many Dalton people attended the Robinson shows in Massillon on Wednesday.

On Sunday the Rev. J. Hoak addressed the I. O. O. F. lodge, which ordered the services at the M. E. church in a body.

Attorney T. W. Kimber, of Akron, former superintendent of the Dalton schools, will speak to the graduating class at the commencement on Friday evening, May 21, in the school hall. B. F. Hess has purchased the stock of groceries from Diller Brothers and will carry groceries along with his meat trade. Diller Brothers will move to Janeiro, O., where they will conduct a store of the same nature as the one here.

The Rev. J. Hoak will speak at New London on Memorial day.

The Presbyterian church choir rendered a cantata Saturday evening, May 6, in the church. A splendid programme was rendered and those who attended heard extraordinary good singing on the part of home talent.

Dr. Haney, Thomas Cully and Miss Margaret Cully were among the Dalton people who attended the concert at Wooster Tuesday evening by Creatore.

Dr. H. A. Hart and son, Wayne Hart, of Wooster, were in town on Thursday.

The schools enjoyed a fishing day at Sugar creek on Friday.

BEACH CITY.

Beach City, May 8.—On last Tuesday evening between ninety and one hundred of the neighbors and friends of John Goehler gathered unexpectedly at his home at the Oak Ridge school house as a farewell call to Mr. Goehler and children, Charles and Callie, who will leave in a few days for Pratt county, Kan., to make their future home. This family has endeared itself to the people of the community during its residence here of about seventeen years, and the best wishes of the neighbors accompany them to their new home.

Miss Lizzie Kloepfer is assisting in house work at Frank Bair's, near Wilmet.

Rudy Nydegger has been "under the weather" the past few days.

George Sheline sold a horse last week.

Alex Holderbaum, of near Massillon, was in this section trying to buy a horse.

Ross Bair, of Wilmot, will work for S. C. Reese on the farm this summer.

W. B. Edmondson.

The Independent is requested to print the following: The funeral of little Wesley Bowman Edmondson, aged 14 years, who died on Good Friday, was held at the home of his parents.

Mr. and Mrs. W. W. Edmondson, in New Berlin, on Easter Sunday, April 23, 1905, and was largely attended. The floral tributes were numerous and beautiful from different societies of the Union Sunday school, New Berlin, where he was an active worker, from different grades in the public schools.

WOMEN WHO WORK

NEED STRONG VIGOROUS NERVES.

The life of women and girls who work is at best a hard one and even under the most favorable circumstances the results often show shattered nervous systems and broken down health. To meet the conditions required of her to sustain the extra strain and nervous tension of duties never intended for her in the plan of nature, she must use every endeavor to preserve the vitality of her nerves and the regularity of the female functions. No remedy ever offered the world has accomplished the wonderful results obtained from the use of Dr. A. W. Chase's Nerve Pills. By supplying the nerves and blood with the elements necessary to their life and activity, they cause a steady increase of natural strength to both body and mind, brighten the eyes, clear the complexion and instead of a depressed, wornout feeling, there will be one of buoyancy and life. Dr. A. W. Chase's Nerve Pills make life worth living.

Mrs. Anna Doretz, of No. 919 Cleveland Avenue, Niagara Falls, N. Y., says:

"I was overtaxed with work and completely tired out. I used to go to bed at night and worry and could not sleep as a result and I was nervous during the day. Hearing of the good effects of Dr. A. W. Chase's Nerve Pills in such affections I determined to try them. I got a box and they were a complete success. They toned me up quickly, I got over the nervousness and sleep finely and restful again. I am sure I am glad to recommend them." 50¢ a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package. For sale by E. S.
